

# HARDWARE DESIGN MASTERCLASSES

13 November 2023

Park Hotel Diament - Muchoborska 10, Wrocław, Poland

## Basic information about the conference

### Target Audience

The main goal of Hardware Design Masterclasses'2023 (HDM'2023) event is the exchange of knowledge and experience among professionals in hardware design, such as:

1. Hardware design engineers
2. Principal hardware engineers, technical lead engineers
3. R&D engineers
4. Managers of hardware design and R&D activities
5. Technical project managers
6. Field Application Engineers and any other technical supporting persons
7. Directors and managers of R&D centers

### Conference profile

The HDM'2023 conference profile fills the gap on the Polish Conference market as it focuses on practical approaches in professional hardware design. HDM'2023 creates a space for professionals to exchange knowledge, to acquire business relations and to develop future cooperation possibilities. This first edition is strongly focused on key electronics design technologies such as: High-speed & RF technologies, Analog, Digital and Mixed Signal electronics as well as PCB/SCH development and circuit simulations. Conference topics were selected by questionnaires that were submitted by hardware engineers.

Wrocław's location, where the event takes place, is Poland's "Silicon Valley" with numerous IT and High-Tech companies headquartered here.

HDM'2023 sessions are divided into case-study lectures including Q&A sessions. HDM2023 aims for practical approach, use-cases, live measurements or design, practical exercises and experiments.

Apart from the meritorical content, the conference is also to be a platform for leading electronic companies to present their profile and products on exhibit stands. Detailed information is provided in section "Sponsorship offer".

#### Conference organizer

DoktorTronik  
Rafał Stępień, PhD  
tel: 693 264 978  
[kontakt@dokortronik.pl](mailto:kontakt@dokortronik.pl)

#### Company details

MIKROSIG RAFAŁ STĘPIEŃ  
NIP: 639 185 44 41  
Francuska 18  
54-405 Wrocław, Poland

## Venue and date

Conference is taking place in Park Hotel Diament, Muchoborska 10, Wrocław, Poland, 13 of November 2023. The total number of participants is limited to 60 attendants, however there is a possibility to increase the number of attendants to 110.

**Participants registration status for today (18/09/2023) - all seats are booked.**

## Sponsorship offer

HDM'2023 will gather professionals in the field of electronics and thus will provide a unique environment for building cooperation, acquiring new professional contacts as well as developing future business opportunities related in the fields of hardware components, measurement equipment and services. Our offer of sponsorship package includes the following benefits:

1. attendance in the full conference program for two company's representatives
2. company's exhibition stand
3. conference materials
4. optional: possibility to present your company by conducting workshop or lecture
5. any additional sponsorship requests may to be individually discussed ([kontakt@doktortronik.pl](mailto:kontakt@doktortronik.pl))

## Conference organizer

The conference will be organized by Rafał Stępień that has its own brand DoktorTronik ([www.doktortronik.pl](http://www.doktortronik.pl)). We specialize in technical training in the fields of IoT, high speed and RF designs as well as DC/DC converters, signal processing and circuit theory. Owner of the company, Rafał Stępień, Ph.D., has more than 18 years of experience in designing electronics circuits. Currently he holds a position as a Technical Director at Bustec Ltd. and Technical Advisor for the Board of Management of BCAST Ltd. in the fields of IoT and DAB+ technology.
