HARDWARE DESIGN MASTERCLASSES AN INDUSTRY EVENT!

Hardware Design Masterclasses (HDM) is a one-of-a-kind conference on the Polish market – 100% focused on the practical aspects of hardware design. It brings together design engineers, technical leaders, and R&D managers involved in the design, testing, production, and implementation of modern electronic systems. **7th edition will take place in Wrocław, Poland on the 26th and 27th of November 2026.**

WHAT MAKES **HDM** UNIQUE?

- 🎯 Strong focus on practical knowledge sharing
- 📊 Case studies, real-world measurements, and design demos
- 🤝 A proven platform for networking and new business opportunities

Since the first edition, the conference has attracted **over 900** professionals from the electronics industry – engineers, developers, decision-makers, and innovators.

7TH EDITION OF **HDM**

26th–27th of NOVEMBER 2026

The 7th edition of the conference is planned as a two-day event and is expected to welcome around **150** participants. This extended format will give attendees even more time to deepen their knowledge, take part in a broader range of lectures, workshops, and training sessions, and engage in valuable exchanges of experience with industry experts.

The program will include lectures, use cases, and hands-on training sessions.
